

Category	Detail Summary												
<p>Transition to Hybrid Model</p>	<p>Joseph Shanklin Elementary School is excited to welcome students back to campus in the hybrid model beginning Monday, October 5, 2020. Students will be scheduled to group AA or BB. Phone calls and messages went out on Monday, September 28th with your child’s assigned days to attend school. At JSES, we are committed to the safety of our staff and students. While we cannot welcome visitors into the building, we do welcome any questions you have regarding the schedules, this document or the sanitation procedures in place at JSES. As always, please feel free to reach out to me via phone (843)466-3400 or e-mail at elizabeth.rivera@beaufort.k12.sc.us. -Liz Rivera, Principal</p> <p>See the chart below for specifics of how students will be engaged and learning each day.</p> <table border="1" data-bbox="380 634 1625 857"> <thead> <tr> <th data-bbox="380 634 793 669">Instructional Delivery</th> <th data-bbox="793 634 1207 669">Group AA</th> <th data-bbox="1207 634 1625 669">Group BB</th> </tr> </thead> <tbody> <tr> <td data-bbox="380 669 793 703">Face-to-Face</td> <td data-bbox="793 669 1207 703">Monday, Tuesday</td> <td data-bbox="1207 669 1625 703">Thursday, Friday</td> </tr> <tr> <td data-bbox="380 703 793 737">Virtual Instruction</td> <td data-bbox="793 703 1207 737">Wednesday</td> <td data-bbox="1207 703 1625 737">Wednesday</td> </tr> <tr> <td data-bbox="380 737 793 857">General instruction deployed in a variety of ways per school, teacher choice</td> <td data-bbox="793 737 1207 857">Thursday, Friday</td> <td data-bbox="1207 737 1625 857">Monday, Tuesday</td> </tr> </tbody> </table> <p>The daily schedule will be the same as in past years with instruction beginning at 7:45 a.m. and dismissal at 2:45 p.m. Students may not arrive earlier than 7:15 a.m. The virtual learning schedule will be modified to mirror the hybrid schedule. The schedule is included as an attachment at the conclusion of this document.</p> <p>As JSES moves into this hybrid mode of learning, be assured that the JSES faculty is committed to our mission statement that we empower all to “Learn. Lead. Make a Difference.”</p>	Instructional Delivery	Group AA	Group BB	Face-to-Face	Monday, Tuesday	Thursday, Friday	Virtual Instruction	Wednesday	Wednesday	General instruction deployed in a variety of ways per school, teacher choice	Thursday, Friday	Monday, Tuesday
Instructional Delivery	Group AA	Group BB											
Face-to-Face	Monday, Tuesday	Thursday, Friday											
Virtual Instruction	Wednesday	Wednesday											
General instruction deployed in a variety of ways per school, teacher choice	Thursday, Friday	Monday, Tuesday											
<p>Morning Arrival Procedure</p>	<p>Hybrid students will arrive to JSES via bus or car drop off. Buses will be unloaded to promote safe social distancing practices and students will enter the building via a side entrance on the music hallway. Car riders will be unloaded by staff on car rider duty. The staff members will be wearing gloves to open and close car doors. We ask that the adult dropping the child off remains in the car. Parents will not be permitted to walk students to class. We will have plenty of staff on hand to assist our students with getting where they need to go.</p> <p>If a student arrives late to school (after 7:45 a.m.) the parent should park in the parking lot and walk the child up to the door to ring the doorbell. Once the parent states the student’s name and reason for being late the student will be admitted into the building.</p>												

	During the first week, and anytime there is a transportation change, we request parents to send a note detailing how the student is getting home (car or bus) and if via bus, the address for drop off.
Breakfast Procedure	Breakfast will be served in the classrooms. All students at JSES receive breakfast free of charge. Cafeteria and other school staff will be wearing masks and gloves while delivering and serving the breakfasts. High touch surface areas will be disinfected between service periods.
Dress Code	<p>We fully expect for students to comply with the BCSD school dress code. However, given current circumstances, we will permit families to make “best efforts” to comply for a period not to extend beyond one week after the start of the hybrid period. Full compliance is expected by October 12.</p> <ul style="list-style-type: none"> • NOTE: “Best efforts” means that students, if not in full compliance, should maintain dress that reasonably resembles the school dress code. • The dress code for JSES is burgundy, white, black, gray, or school shirts with khaki, black or navy blue pants. • All staff and students will be required to wear masks. Masks have been added to the student dress code. Staff and students are encouraged to bring their own masks. We will have extra masks for students that need a mask.
Lunch Procedure	<p>Lunch will be served in the classrooms. All students at JSES receive lunch free of charge. Cafeteria and other school staff will be wearing masks and gloves while delivering and serving the lunch. High touch surface areas will be disinfected between service periods. Students also have the option to bring their own lunch.</p> <p>No parents or visitors are permitted to visit and eat with the students.</p> <p>JSES classes can also utilize socially distanced outdoor eating in our courtyard when the weather is appropriate.</p>
Afternoon Dismissal Procedure	<p>Parents and guardians must remain in vehicles at all times during the dismissal procedures. At 2:45 students will be dismissed via the afternoon announcements.</p> <p>Car riders will be dismissed first. We will utilize open areas by the car rider line and the courtyard to socially distance groups of students to decrease the risk of potential crowding. This may create a slight delay in our car rider dismissal, but safety is our first priority. Students will be called by name/grade level to a numbered cone. Staff on duty will be wearing gloves and opening and closing car doors for students.</p> <p>Bus riders will be dismissed in stages by grade levels to decrease the risk of potential crowding at the bus loop.</p>
Recess	Out of an abundance of caution, playground usage will be prohibited at BCSD schools until further notice. Ongoing evaluation of this policy will be conducted to determine whether a different course is necessary.

	<p>However, students will still be given fresh air breaks during scheduled times during the day. Teachers are encouraged to lead students in socially distanced games such as those at:</p> <p>https://linkprotect.cudasvc.com/url?a=https%3a%2f%2fwww.asphaltgreen.org%2fblog%2frep-it-out-games-for-social-distancing&c=E.1.rExEHo7jQMjSuTKqo4qWzEwarcRBjHaTYIZkTkL77TRNLzrhHMotkZPkzoNlr5hXzKx5qVODkRRRpaew21jnZn5qZyih9fSSDO_WssiP9gAyqyrBGctT&typo=1</p>
Media Center Access and Protocols	<p>Media specialists will collaborate with teachers to provide relevant and engaging materials to the classrooms that are aligned with the curriculum being taught. Students wishing to check a book out of the media center may request the book through their teacher and it will be delivered to them. Books checked out from the media center must remain at school. When books are returned to the media center they will be quarantined for 48 hours before being return to the shelf.</p>
Special Education Students	<p>Special Education students will receive services based on their Individualized Educational Program (IEP).</p> <ul style="list-style-type: none"> • Amendment of existing Individualized Education Plans (IEPs) may be held as appropriate to address new student needs and services • Distance Learning Plan meetings have been held for all students who remain on virtual learning. • Meetings will be held virtually unless an in-person, socially distanced meeting is requested. • Eligibilities, reviews and Manifestation Determination Review meetings will all proceed
Restroom	<p>Pre-K through 2nd grade classrooms have a restroom within the classroom for student use. These restrooms will be sanitized on a schedule set by custodial services. If a restroom needs to be cleaned more frequently, teachers may put in a request. Group restrooms with multiple stalls will be limited to three students at a time. These restrooms will be sanitized on a schedule set by custodial services.</p>
Water Fountains	<p>The water fountains in the building will not be available for use. Students will be encouraged to bring water bottles for their own use throughout the day. Water bottles can be refilled in the classroom when a sink is available. It is encouraged for students to have names or initials on their water bottles.</p>
Visitors to the Building	<p>Based on DHEC suggestions/ recommendations:</p> <ul style="list-style-type: none"> • Limited Visitors - visitors will be by appointment only (limited number daily).

	<ul style="list-style-type: none"> ● Minimize others in the classroom - No classroom volunteers will be allowed – this will be reassessed throughout the school-year. ● Parents will be asked to remain in cars during morning drop off ● Standard vetting questions for all visitors, vendors, etc. ● Require face coverings/masks for all visitors ● Maintenance (exterminators, filter change, etc.) will check in through front office ● Nutrition vendors will check in with nutrition manager upon arrival
Facilities	<p>Based on DHEC considerations for schools:</p> <ul style="list-style-type: none"> ● Students will be able to bring their own water bottle. Students may fill/refill their water bottles in their classrooms where sinks are available. ● Provide isolation rooms for ill students/staff/visitors until they can exit the building. ● Increase signage in the building in various locations as reminders. ● Classrooms, office areas, cafeteria, and high-volume areas will be sanitized daily. ● The custodial staff will be following the school cleaning and sanitizing plan for our building. ● The custodial staff will utilize industrial sanitizing misting machines to sanitize classrooms, common areas, and large spaces throughout the school on a consistent basis ● Restrooms will be cleaned multiple times throughout the day.
Safety Supplies and Materials	<p>Please note:</p> <ul style="list-style-type: none"> ● BCSD has an adequate supply of cleaning/sanitation products in stock for the first semester. Additional supplies have been ordered and will be available for the semester. ● We currently have signage, thermometers, face coverings/masks, gloves, sanitizing chemicals, spray bottles, disinfectant wipes, hand sanitizer, and hand soap.

	<ul style="list-style-type: none"> All staff and students will be required to wear masks. Masks have been added to the student dress code. Staff and students are encouraged to bring their own masks. We will have extra masks for students that need a mask.
Sanitation	<p>The following sanitation protocols will be deployed:</p> <ul style="list-style-type: none"> Frequently sanitize classrooms: Teachers/staff will use the sanitizing spray throughout the day as needed and at the end of each day. Custodial staff will concentrate on high touch areas and restrooms multiple times throughout the school day. The Nurse, teachers, and staff will reinforce good hygiene practices frequently. This will include handwashing before and after lunch in their classrooms. Students will also wash their hands after all visits to the restroom.
COVID-19 Infection	See Addendum Below:
Health Protocols	<p>Our nurse office has been divided into two rooms with a door separating them. One entry/room is designated for well visits, such as taking medication. The other entrance/room has been designated for students exhibiting symptoms consistent with Covid -19.</p> <p>In order to lessen the number of students presenting symptoms at the nurse’s office, please check your child’s physical condition (any signs/symptoms such as fever, cough, sore throat, etc.) before sending to school.</p>
Transportation and Bus Riders	School administration will assist bus drivers as needed in completing seating charts to assist with socially distancing students on the bus.

COVID-19 RESPONSE PLAN

What happens when there is a COVID-19 diagnosis, exposure or when someone is experiencing symptoms?

Beaufort county School District (BCSD) closely monitors up-to-date guidance from our public health officials to determine when our students should be sent home and when they may return to the school building after being notified of a confirmed COVID-19 diagnosis or test, an exposure or close contact with COVID-19, or when someone is experiencing symptoms. Please inform your school nurse of any potential COVID-19 exposures.

BCSD relies heavily on DHEC, CDC and our Medical Director to assist us in making a range of decisions for our district.

For COVID-19, a close contact is defined as any individual who was within 6 feet of an infected person for at least 15 minutes starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to positive specimen collection) until the time the patient is isolated.

This would include living in the same household as a sick person with confirmed COVID-19 or caring for a sick person with confirmed COVID-19.

Students and staff should be excluded from school if they have any of the following with or without fever:

- Shortness of breath or difficulty breathing -or-
- Loss of taste or smell -or-
- New or worsening cough

If these symptoms are explainable by an underlying condition (such as shortness of breath for an individual with asthma) exclusion may not be necessary.

This is not a complete list of all symptoms of COVID-19, but only those that should trigger an automatic exclusion and evaluation for COVID-19. Other symptoms may include: fever, chills, fatigue, muscle or body aches, headache, sore throat, congestion or runny nose, nausea/vomiting, or diarrhea. Many COVID-19 cases show no symptoms at all, and a person is able to spread the virus up to two (2) days before they have any symptoms. Given the overlap of these symptoms with other more common illnesses and the lack of symptoms in many cases, it is not possible to identify and exclude all cases of COVID-19 through screening of symptoms. Careful preventive actions within the school are needed to reduce the chances of spread. For example:

- If the student or staff member is having symptoms they should stay home and contact their supervisor, their school nurse and their healthcare provider
- If the student or staff member is at school, the school will isolate and send home. The diagnosis from the healthcare provider should be reported to the school nurse.
- If a school determines that a student or staff member was contagious with COVID-19 while on campus, DHEC requests that these individuals be reported to the appropriate regional DHEC office by phone within 24 hours. DHEC will also notify schools of any reported cases that may have been contagious while on campus. All close contacts at the school will need to be identified and reported to DHEC. This will include everyone the ill individual would have been within six (6) feet of for fifteen (15) minutes or more. (This will be done by the school nurse).

Student/staff has symptoms, but no known exposure and a negative diagnosis of COVID-19

- Students or staff excluded for symptoms can return if they test negative for COVID-19 using a PCR or similar test that directly detects the virus, or a medical evaluation determines that their symptoms were more likely due to another cause (e.g. sore throat due to strep throat).
- In this latter case, the individual can return when they meet criteria for that condition (i.e., on antibiotics and fever-free without fever-reducing medication for 24-hours with a diagnosis of strep) and they obtain a negative diagnosis of COVID-19.
- Siblings of the symptomatic student may also return the day after receipt of the negative diagnosis if they have not been a close contact or had a COVID-19 exposure.
- Students/staff should not return to school while waiting for COVID test results

For the safety of the entire school, a negative test should accompany any medical determination that symptoms were likely due to a different diagnosis.

Student/staff has a positive diagnosis of COVID-19

Students and staff who test positive for COVID-19 and persons with symptoms of COVID-19 (see list above) who do not get tested, should isolate until:

- Ten (10) days have passed since symptoms started - and –
- Twenty-four (24) hours have passed since last fever without taking medicine to reduce fever - and –
- Overall improvement in symptoms.

Those who test positive by a PCR (mouth or throat swab) test or similar viral test but do not have symptoms will be required to stay out of school until ten (10) days* after the specimen was collected.

Cases in classroom

If a student or staff member tests positive, they could have been contagious with the virus up to 48 hours before their symptoms began or before their test specimen was collected (for those with no symptoms).

- It is essential that staff ensure 6 feet or maximum distancing between students and other staff while in the classroom and throughout the day to limit the possibility of transmission.
- Anyone known to be a close contact (defined as being within six (6) feet for fifteen (15) minutes or more) to a COVID-19 case while contagious must be excluded from school for fourteen (14) days after last contact with the person with COVID-19.
- People who have recovered from a confirmed illness (PCR test, nose or throat swab test or saliva test) in the past three (3) months will not need to quarantine after a close contact with someone with COVID-19. See “Quarantine” section below:
- For any classrooms where social distancing could not be maintained (classes with young children who do not have assigned seating throughout the day), all children and staff must be considered close contacts and must complete a fourteen (14) day quarantine period.
- Students and teachers in a classroom with a known COVID-19 case in which social distancing was reliably maintained should remain together in the same cohort to the extent that is possible. They should receive screening for fever and symptoms (see

above) each morning until 14 days after last contact with the case. Note: anyone determined to be a “close contact” must be excluded.

- Any of these students or teachers who are monitored and found to have symptoms of COVID-19 should be sent home and they will be required to get tested or complete the required isolation and initial quarantine period to return to school.
- If three or more COVID-19 cases are identified within a classroom within fourteen (14) days of each other, consideration should be given to excluding all students and staff in the classroom for fourteen (14) days after contact with the last identified COVID-19 case.
- The classroom will need to be closed for cleaning and disinfection before use again. When time allows, a room will be closed for occupancy for up to 2 days prior to cleaning. When needed to reuse immediately, sanitization services will be provided by an outside contractor.
- **Students who are sent home will be allowed to complete work through distance learning.**

Quarantine

Some students or staff may have been told they were a close contact to a case of COVID-19 and have to complete a quarantine period. This means they will be required to stay home so they do not risk exposing others to COVID-19 if they become sick. For students (after the quarantine period has been met) a parents’ note that they have been cleared from quarantine, following consultation with the school nurse, may be used to allow return to school. CDC provides guidance on appropriately counting the quarantine period for different scenarios.

- Household contact: If the child or staff member lives in the same household as the case, they will have to quarantine an additional fourteen (14) days after the date their household member has been cleared from their isolation period. (will be 24 days)
- Other close contact: If a child or staff member has been told they are a close contact to a case of COVID-19, they will need to quarantine until 14 days after the last contact with the case.
- Other household member in quarantine: If the child or staff member lives in the same household as someone in quarantine, they will not necessarily need to quarantine themselves unless the household member in quarantine is determined to be a COVID-19 case. DHEC will notify those who are required to complete quarantine.

- The person must provide either a note from a healthcare provider that they had the positive lab result in the past three (3) months or provide a paper or electronic copy of the results (SARS-CoV-2 RNA – Detected or Positive)

NOTES:

1. *For any negative test result, BCSD will follow the recommendations of the healthcare provider for the individual student and continue as normal.*
2. *If multiple students in the same classroom exhibit symptoms, the entire class will be sent home until diagnoses can be obtained.*
3. *Students, who are sent home, while awaiting a diagnosis, will be allowed to complete work through distance learning.*

EMPLOYEE SUPPORT

Childcare

BCSD will provide childcare for the children of all BCSD staff members whose child(ren) are currently enrolled in a BCSD school. Students must receive their childcare at the school in which they are currently enrolled, barring exigent circumstances. Ex. limited capacity

- Childcare will be available for students, ages 5 through 12
- Schools with significant numbers of students who attend the schools where their parents work may receive the first right of refusal for available seats. If the childcare demand exceeds the space available, “overflow” students will be redirected to the next closest school(s) with available childcare space.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

BCSD will supply each school with the necessary Infection Control and PPE supplies to begin the year (hybrid mode) safely. Based on the statistics related to COVID-19, routine assessments will be completed to ensure our schools have a sufficient supply of

infection control items and PPE. As usage is monitored, recommended quantity thresholds will be established for replenishment. If you are ever needing additional PPE, please report to administration as soon as possible so that a request can be made for additional PPE through the work order system. Safety of our students and staff are a high priority.

- Personal Protective Equipment acts as a barrier designed to reduce the number of illness-causing germs. Proper use of PPE is believed to reduce the spread of infectious disease such as COVID-19. PPE is essential for school staff that has high exposure to student and staff with assisting high-intensity classrooms or school nurses. These specific items will be used when monitoring or assisting a person exhibiting symptoms where safe distancing is not possible.

Examples:

- Six-foot (6') Separation – Will be used whenever possible to limit the spread of droplets through the air from person to person.
- Cloth Masks – These will be used to slow the spread of infection by reducing transmission of diseases such as COVID-19.
- Disposable Masks – A base supply of disposable masks will be provided to each classroom to be used should a student or staff members cloth mask become unusable. If a student or staff member fail to bring their cloth mask, disposable masks will be distributed by the school administrative staff, not taken from class quantities.
- Reusable face shields – Will be used by school nurse or staff to monitor symptomatic persons or when providing an ordered respiratory procedure. Face shield should be cleaned after each use per the CDC guidance.
- Plexiglass Barriers – Will be used where individuals are:
 - less than 6' from the public, or
 - work/learn together in a space closer than 6' for longer than 10 minutes, or
 - work/learn together in a space closer than 6' and are unable to wear masks.
- Disposable surgical masks – Will be used by school nurse or designated staff when interacting with a person who may be producing respiratory or body fluids that could promote exposure.
- Disposable gowns – Will be used by school nurse or designated staff when interacting with a person who may be producing respiratory or body fluids that could promote exposure.

- Disposable Gloves – Will be used by school nurse or designated staff when interacting with a person who may be producing respiratory or body fluids that could promote exposure.

DISTRICT GUIDANCE TO SCHOOLS

Based on Center for Disease Control and DHEC suggestions and recommendations, the following guidance has been provided to the schools:

- Allow parents to send a reusable water bottle that students take home daily for cleaning
- Examine opportunities for outdoor activities for specials, connections, and elective courses when possible
- Eliminate large group assemblies that do not allow for six feet social distancing
- Rearrange desks and furniture in classrooms to allow for as much space between students as possible
- Face the student desks in the same direction as much as possible
- Reduce student travel to different areas of building where possible
- Implement teacher rotation to classrooms instead of students moving where possible (strategic guidance for elementary schools)
- Eliminate/minimize as much as possible the sharing of supplies and materials. If materials are shared, schools will develop and implement a cleaning and sanitizing procedure.
- Schedule restroom breaks and hand washing routines throughout the day
- Avoid handshakes, hugs, or high fives. Students and teachers will need to create hand signals or other ways to replace this practice.
- Work with Nurses and Facilities Department to establish isolation rooms for ill students/staff/visitors
- Increase signage throughout the school building
- Establish entrance, exit routes, and hallway travel routines
- Reinforce good hygiene practices frequently

- Place makers/tape on the floor to indicated 6 feet distancing in the cafeteria to promote social distancing while waiting in line or when using cafeteria in a reduced capacity method
- Do not allow students to share food
